

Notice of Public Documents, Comment Period and Public Meeting

The Los Angeles Department of Water and Power (LADWP) is proposing a water treatment project alternative to remove contamination from wells in the San Fernando Valley groundwater basin, North Hollywood West Well Field, affected by a contaminant known as 1,4-dioxane. LADWP has prepared a Public Notice of a Proposed Plan, Remedial Investigation and Feasibility Study and related documents for an interim remedial action for the North Hollywood West Well Field project, prepared pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA). LADWP also has prepared a Notice of Intent to Adopt a Mitigated Negative Declaration of the project prepared under the California Environmental Quality Act (CEQA).

LADWP will conduct a public meeting to describe the project, and accept public comments during the dates for the Public Comment Period listed below.

Public Comment Period

December 7, 2016 to January 23, 2017

Public Meeting

January 4, 2017, 6:00 p.m. – 8:00 p.m.

Valley Plaza Library

12311 Vanowen Street, North Hollywood, CA

All environmental and required documents for the project, locations where they are publicly available, and details of how to submit public comments are posted at www.ladwp.com/envnotices. For further information about the San Fernando Groundwater Basin Remediation Program, please view www.ladwp.com/remediation.

Sign Language interpreters, Assistive Listening Devices, or other auxiliary aids and/or services may be provided upon request. To ensure availability, you are advised to make your request at least 72 hours prior to the meeting you wish to attend. Due to difficulties in securing Sign Language Interpreters, five or more business day notice is strongly recommended. For additional information, please call 213-367-1361, TDD: 1 800 HEAR DWP (1 800 432-7397).
